Capabilities Statement

CAPABILITIES & BACKGROUND

Constituent Services Worldwide (CSW), established in 2011 and headquartered in Washington, DC is a full-service 8(a) and HUBZone dynamic solutions partner serving both federal and local government agencies. As a multi-faceted Public Benefit Corporation, CSW is designed to be a catalyst for government initiatives, as well as a resource for private sector clients. Since its inception, CSW has developed into an award-winning firm that is recognized for implementing full life-cycle and vertically integrated solutions. Over the past decade, CSW has thrived into an organization with robust past performance supporting government and small business initiatives requiring **financial services, education** (youth, adult, business professional, and distance), **cybersecurity, management consulting, social services, green infrastructure, telecommunications, workforce development, and hospital staffing financial management.**

PAST PERFORMANCE

CSW has federal prime contractor experience with the US Department of Education within the Office of Chief Information Officer. Our past performance entails providing financial re-engineering services, top-to-bottom program management, and acquisition and budget planning for IT-focused projects ranging \$50+ million aggregate. Some of our outstanding projects for which we have served as prime contractor are highlighted below:

- CSW has developed and maintained an Operational Analysis Plan that includes a measurement of the performance and cost of IT operational
- services and conduct ongoing operational analyses, in accordance with OMB guidance
- Reduced the Department's IT budget ~\$25m within the first year of the contract
- Manages the Monthly IT performance reports that cover all machines from desktop/laptops, printers, mobile devices, hosting initiatives, etc.
- Oversaw mobile transition from previous devices to new devices, while simultaneously recommended the Department to upgrade to devices that were covered at no additional costs
- We have proactively managed risks to include at a minimum identification, analysis, monitoring and control, response planning, tracking, reporting, and systematic reduction of risks that could impact the technical, cost and schedule objectives for each task area
- Develop and implement a portfolio governance plan and facilitate periodic health checks between decision-point reviews to assess on-going performance and progress toward the realization and sustainment of benefits
